DCC Programs of Study  As of 3/27/13

**Associate of Arts and Science Degree**

- Business Administration
- Liberal Arts
  - Educational Interpreter
  - Training Specialization
  - Humanities Specialization
  - Social Science Specialization
- Science

**Associate of Science Degree**

- Engineering

**Associate of Applied Science Degree**

- Accounting
- Administration of Justice
  - Law Enforcement
  - Specialization
  - Corrections Specialization
  - Protective Services
  - Specialization
  - (Private Security)
- Administrative Support
  - Technology
  - General Office Specialization
  - Legal Specialization
  - Medical Office Specialization
- Business Management
  - Management Specialization
  - Graphic Imaging
  - Management Specialization
- Automotive Management
  - Specialization
- Motorsports Management
  - Specialization
- Dental Hygiene
  - (awarded by Virginia Western Community College)
- Early Childhood Education
- General Engineering Technology

**Health Science**

- Practical Nursing Specialization

**Information Systems Technology**

- Computer Programming
- Specialization
- Gaming & Mobile Application
- Development Specialization
- Network Specialization
- PC Technology Specialization

**Marketing**

- Consumer Marketing Specialization
- Warehousing and Distribution Specialization
- Electronic Commerce Specialization
  - (also an online degree)

**Medical Laboratory Technology**

- (awarded by J. Sargeant Reynolds Community College)

**Nursing**

- Radiography
- Respiratory Therapy
  - (awarded by J. Sargeant Reynolds Community College)

**Technical Studies**

- Advanced Manufacturing Engineering Technology
- Industrial Maintenance Technician
- Nanotechnology Technician
- Education
- Polymer Manufacturing Technology
- Wood Science Technology
- Product Design & Development Specialization

**Diploma**

- Air Conditioning & Refrigeration Servicing
- Automotive Analysis & Repair
- Computer-Aided Drafting & Design
- Electrical/Electronic Equipment Servicing
- Electrical/Electronics Engineering Technology
- Graphic Imaging Technology
- Precision Machining Technology

**Certificate**

- Air Conditioning & Refrigeration Servicing
- Auto Body Mechanics
- Building Trades Technology
- Corrections
- Cybercrime Investigation*
- Drafting Technology
- First Year Studies
- General Education
- Industrial Electrical Principles
- Industrial Electronic Principles
- Law Enforcement
- Maintenance Mechanics
- Office Information Processing
- Practical Nursing
- Protective Services
  - (Private Security)
- Residential Design & Estimation
- Summer Air Conditioning & Refrigeration Servicing
- Welding Technology
- Winter Air Conditioning Servicing

**Career Studies Certificates**

- Advanced Manufacturing Concepts
- Advanced Nurse Aide
- Advanced Product Design & Development
- Alternative Energy Technology I
- American Sign Language
- Basic Dental Assisting
- Building Construction Trades
- Commercial Art
- Digital Art & Design
  - (Halifax County only)
- Digital Imaging & Photography
- Early Childhood Development
- Educational Interpreter Training
- Electronic Concepts
- Emergency Medical Services
- Emergency Medical Technician – Intermediate
- Factory Automation & Robotics
- Horticulture
- Interior Decorating
- Legal Assisting
- Logistics Management
- Manufacturing Leadership
- Manufacturing Technician
- Medical Coding
- Medical Terminology
- Medical Transcription
- Metal Processing
- Microcomputer Software
- Motorsports Management
- Network Technology
- Networking with CISCO/CCNA
- Nurse Aide
- PC Upgrade and Repair
- Pharmacy Technician
- Phlebotomy
- Polymer Processing Technician
- Printing Technology
- Product Design & Development Programming
- Real Estate Abstracting
- Web Site Design
- Welding
- Workplace Readiness

*pending approval
Welcome to DCC!

If you are a new student, returning student or you have chosen to take some courses this summer to transfer to the four-year institution you are currently attending, we extend a special welcome to you for the 2013 Summer Session.

2012-2013 has been another exciting and successful year for DCC’s faculty, staff and students. As we reflect on the year’s events, our unwavering commitment to student learning and success continues to be our central goal. As you may know, Danville Community College has always sought to strike a proper balance between our outstanding college transfer and technical/workforce services programs. Speaking of the technical and workforce services areas, we are pleased that DCC will be the recipient of $3.7 million in state funds to expand a number of technical programs, such as industrial maintenance, precision machining, and welding. The state funding will be combined with approximately $3.5 million in private and federal funds, bringing the total to more than $7 million. Other programs affected by the additional funding will include printing/graphic arts, building trades, and electronics. We are grateful to Governor Robert F. McDonnell, our legislative delegation, our industry partners, and the Tobacco Commission for their support in launching this exciting initiative. If one factors in the $7 million raised in the recent Major Gifts Campaign, the College will have access to almost $15 million over the next several years to strengthen program capacity. Clearly, DCC’s future students will be the beneficiaries.

Speaking of the future, on August 1, 2013, a new president will assume the leadership helm at DCC. It will be an exciting new era for this great community college!

Very sincerely,

B. Carlyle Ramsey
President

Vision: Danville Community College will be the college of choice in our region for exemplary educational programs and services.

Mission: Danville Community College is committed to providing quality comprehensive higher education and workforce programs and services to promote student success and to enhance business and community development.

Danville Community College does not discriminate on the basis of race, sex, color, national origin, religion, age, political affiliation, disability, veteran status, or other non-merit factors in its programs or activities. Member, Virginia’s Community Colleges.
Dr. Carlyle Ramsey, retiring president of Danville Community College, will be the speaker for the 2013 Commencement, set for Friday, May 10, at 7 p.m. on the grounds near the Hill Building. All fall and spring graduates and students who will complete their studies in the summer will participate.

This year’s program includes more than 500 graduates who will receive associate degrees, diplomas and certificates. The number includes more than 100 high school seniors who will be receiving a General Studies Certificate and/or Associate of Arts and Science Degrees. In addition, honorary associate in humane letters degrees will be awarded to four citizens who have been strong advocates for the community college. This year’s recipients are Ann Fitzgerald Brown, The Honorable Whittington W. Clement, Ben J. Davenport Jr., and Charles A. Womack, Sr. (posthumously). Scholarship recipients who are continuing their education at four-year institutions also will be recognized during the ceremony.

Ramsey, DCC’s fourth president, has been at the helm for 21 years. He is set to retire August 1, 2013. A native of South Boston, he received his Bachelor of Arts Degree in History from the University of Florida, and a Master of Science Degree and Ph.D., both in History, from Florida State University. Ramsey was appointed President of Danville Community College on March 1, 1992. Prior to becoming president, Ramsey was the College’s Dean of Instruction and Student Development from 1987-1988.

He also has served in the following positions: Assistant Vice Chancellor, Virginia Community College System (VCCS), from 1989-1992; Vice President of Academic Affairs, Union College (KY), and Assistant Academic Dean and Division Chair at South Georgia College.

Ramsey serves on a number of local, regional and national boards including the Danville Development Council (former chair); Halifax County Industrial Development Authority (former chair); Danville-Pittsylvania County and Halifax County Chambers of Commerce (former chair); Institute for Advanced Learning and Research; Southern Virginia Higher Education Center; and the Rural Community College Alliance (former chair). He also served as President of the Association of Virginia Colleges and Universities. Ramsey participated in the Virginia Executive Institute and the Harvard Institute for Educational Management. He has published scholarly articles in a number of professional and trade journals.

He and his wife, Rosemary, have two children, Stephanie and David, and one granddaughter, Ramsey Jane.

Economics and Ethics Themed Keynote Speaker

Dr. David Brat

Dr. David A. Brat, chair of the Economics and Business Department and Director of the Ethics Minor program at Randolph-Macon College, recently was the keynote speaker at two economics and ethics themed presentations, sponsored by American National Bank and Trust Company (AMNB) and DCC’s Barkhouser Free Enterprise Center. At DCC, Brat, second from right, discussed “The Moral Foundations of Capitalism.” He is shown with (left to right) Dr. Vince Decker, Professor of Business Management; Charles H. Majors, Chairman and CEO, AMNB; David Bonebright, Professor of Marketing and Business Management; E. Budge Kent, AMNB; and DCC President Dr. Carlyle Ramsey.
Students Inducted in Phi Theta Kappa Honor Society

Thirty-two Danville Community College students were recently inducted into the DCC chapter (Upsilon Phi) of Phi Theta Kappa, the international honor society for two-year college students. The ceremony also featured remarks by DCC President Dr. Carlyle Ramsey, who was later honored for his support of the chapter and its activities.

The student inductees included:

**City of Danville Residents**
Terry James Adams
Randall Wade Atkins
Amanda Bailey
Crystal Michelle Clary
Alysha Renee Clayton
John Edward Collins
Jordan Elizabeth Dallas
Tiffany Brooke Finney
Teresa Michelle Hardy
Sherita Faye Howard
Antony Illa
Phillip Anthony Kallam Jr.
Linda Gale Mack
Ivy Johnson Martin Jr.
Abdullah Nasir
Denise Evans Ore
Quentin Nathaniel Pinchback
Amber Leann Reagan
Holly Elizabeth Standen

**Pittsylvania County Residents**
Samantha Kristine Childress, Blairs
Kimberly Dawn Poteat, Callands
Danielle Wenonda Griffin, Cascade
Leslie Neal Aaron, Chatham
Angela H. Colins, Chatham
Taylor Blaze Lester, Chatham
Dawn Nicole Webb, Dry Fork
Brandy Holley Eastwood, Keeling
Spencer Calvin Walker, Keeling
Tara Buffington Foster, Ringgold
Karen Samantha Latea Richardson, Ringgold
Michael Lee Slaughter, Ringgold

**Halifax County Resident**
Maurice Evans Miller, South Boston

The 2012-13 chapter officers are: Cord Cothren, President; Randy Drye, Vice President; Elizabeth Hedrick, Secretary; Francine Stewart, Scholarship Chair; Jacob Stilley and Jonathan Dean, Leadership Co-Chairs; Steve Oake, Service Chair; Laura Gibson, Madeline Hicks and Cecily Talbott, Fellowship Co-Chairs; and Stacy Drye, Historian. Chapter advisors are Dee Drinkard, Associate Professor of Psychology; Sherry F. Gott, Associate Professor of English; and Vickie H. Taylor, Assistant Professor of Sociology.
Scenes from DCC’s Career/Networking Fair

Area employers attended the Annual Career/Networking Fair held in the Student Center. Thank you to all participating businesses and organizations.

DCC Students Inducted In National Technical Honor Society

Nineteen Danville Community College students were recently inducted into the National Technical Honor Society (NTHS). The ceremony featured remarks by Michael Duncan, Deputy Director at the Institute for Advanced Learning and Research, and DCC President Dr. Carlyle Ramsey. The NTHS honors student achievement and leadership, promotes educational excellence, and enhances career opportunities for its members.

The student inductees included:

**City of Danville Residents**
Devon Brown-Hayling
Camille Hardway
Gregory Holmes
Brandon Hutcherson
Samuel Jamerson
Robert Santora
David Scearce
Ethan Ward

**Halifax County Residents**
Eric Adkins, Alton
Travis Jelley, Alton
Jeremy Barksdale, Halifax
Todd Blanks, Buffalo Junction

**Residents from Other Areas**
Austin Bolt, Ridgeway
Christian Staiger, Chase City

**Pittsylvania County Residents**
Blake Bass, Ringgold
Tim Good, Chatham
David Lewis, Blairs
Coy Simmons III, Cascade
Joshua Rowland, Ringgold

**Officers for 2013 are:** Matthew Baker, president; Devon Brown-Hayling, vice president; Camille Hardway, secretary; Christian Staiger, photographer; and Blake Bass, treasurer. The chapter advisors are Derrick Vicks, Assistant Professor of Air Conditioning and Refrigeration; Teresa Toler, Electronics Technician II; and Patricia White, Administrative and Office Specialist II.
**DCC Welcomes New Employees**

**H. McKinley Graves** has been employed as Information Technology Specialist I. Prior to this new role, Graves was employed for 10 years as a Library Specialist I. Prior to coming to DCC, he worked for 13 years at Tultex as a prep operator.

Graves attended Danville Community College and received his Associate of Applied Science Degree in Information Systems Technology. In this new position, Graves will help maintain the College’s information technology infrastructure; support students, staff, faculty and administrators with use of computers and hosted Virginia Community College System services. Graves is currently a member of the Community Emergency Response Team (C.E.R.T.) at DCC.

He is a native of Rocky Mount, but now resides in Danville. He has one son, Isaiah McKenly Strickland.

**CarShena Cain Johnson** has been named Education Support Specialist II with the Trio Upward Bound Program. She returns to Upward Bound after having worked for four years with the program from 2000 – 2004. Prior to her return, Johnson was a Parent Liaison/Parent Involvement Coordinator for the Wake County Public Schools.

She is a graduate of Saint Augustine’s University, Raleigh, NC, receiving a Bachelor of Science Degree in Pre-Physical Therapy. In her new role, she will track the academic progress of participants, complete needs assessments, compile annual reports on grade distributions, and supervise and coordinate all tutorial, academic year and summer component activities.

Johnson is excited about returning to DCC. “I expect to enlighten students on achieving their full academic potential; to bring additional awareness to students about college choices; provide assistance with academic and personal issues and maintain a good rapport with target school officials,” she says.

**Gail Jones** has been named Administrative & Program Specialist III for the Middle College and Great Expectations programs. She previously was employed for three years as a Forming Operator for Corning, Inc., 14 years as Office Staff for Immediate Care, P.C., and two years as Study Coordinator and Data Manager for Danville Hematology & Oncology. She holds an Associate of Applied Science Degree in Administrative Support Technology – Medical Specialization.

Jones and her husband, Doug, reside in Danville, and are the parents of three daughters and three grandchildren. When asked what she is expecting to accomplish in this new position, Jones says she wants to “help students succeed, better themselves and become productive citizens in our society.”

**Mark Rutledge** has been named Information Technology Specialist I. He is no stranger to DCC since he is a graduate with an Associate of Applied Science Degree in Information Systems Technology. He worked as a peer tutor for one and a half years and is currently attending Radford University, majoring in Computer Science. In this new position, he will help maintain the College’s information technology infrastructure and act as the backup information security officer.

Rutledge resides in Danville and his hobbies include playing video games and listening to music. When asked what he is expecting to accomplish in his new position, Rutledge says “to acquire valuable experience and to become a more capable IT professional.”

**R. Todd Sanders** has been named Assistant Professor of Precision Machining Technology. He previously was employed for one year as a Tradesman at the Southern Virginia Higher Education Center; five years as Machine Shop Supervisor at EIT; and 22 years as a Machinist/Working Foreman at Commonwealth Machine Company. Sanders has also been a member of the Pittsylvania County School Board for five years.

He attended Danville Community College and in 1985 received his Diploma in Precision Machining Technology. Sanders and his wife reside in Pittsylvania County and are the parents of four children. When asked what he is expecting to accomplish in his new position, Sanders says “I want to be a part of an expansion to increase the number of qualified precision machining students entering the workforce.”

**Ola Tarpley** joins the Southern Piedmont Educational Opportunity Center as Administrative & Program Specialist III. She previously was employed for three years as the Administrative & Office Specialist for the Pathways for Success grant program and later part-time as Administrative Assistant in the Business Office. Tarpley is also an adjunct instructor teaching aerobic and Zumba classes.

Tarpley attended Danville Community College and received her Associate of Applied Science Degree in Business Management. She will be responsible for providing clerical and administrative support to the EOC Project Director and staff.

Tarpley and her husband, Kenneth, reside in Axton, and are the parents of one daughter and two grandchildren. Tarpley says she is looking forward “to assisting students to enter or re-enter a program of post-secondary education; and providing assistance with career decision making, and the admissions and financial aid processes.”
After moving to the Danville area less than a year ago with what he describes as “next to nothing”, 24-year-old Tyrell Haddock has completed the Training Assessment, Retention and Employment (TARE) program, landed a good full-time job and is now able to support his family which includes a wife and four children.

Looking back, Haddock grew up in Brooklyn, NY, having moved around in various housing situations with his single parent mother, older brother and a younger sister. When his brother left the family, it was up to Haddock to care for his “little sister” while his mom worked.

“I resented it then that I had to sit around and babysit my sister, but now I know it has made me the man that I am today, and how I know I must set an example in caring for my family,” Haddock says.

Married at 21, Haddock and his 20-year-old bride, Lateisha, struggled to make ends meet and soon he was living with three children, his wife’s sister and her two children, another sister, and his mother-in-law in a three bedroom apartment. At the time, he was the only breadwinner in the house, earning money by working various security jobs. He admits, he had never heard of Danville, VA until almost a year ago, when the young family followed his mother-in-law to Danville where she temporarily relocated.

“My wife and children moved here in April 2012, but I stayed a while longer in Brooklyn trying to work because I did not know what the job situation would be like here in Danville,” Haddock explains.

Three months later, in July 2012, Haddock moved to Danville to be with his family, which by now had increased to four children. He found himself unemployed, frustrated, and having to rely on public assistance through the Danville Division of Social Services’ Temporary Assistance for Needy Families (TANF) program. He initially was assigned to perform job search activities, but he was unsuccessful.

In October 2012, Haddock was assigned to the Training, Assessment, Retention, Employment (TARE) program housed on the Danville Community College campus. TARE, sponsored by the Danville/Pittsylvania County Social Services and Pittsylvania County Community Action, offers assessments through the Test of Adult Basic Education (TABE), pre-employment training, individual and group counseling, computer skills, vocational training, educational training, supportive services, and assistance with job placement. Classes are held monthly, and participants commit to a four-week session which meets five days per week, from 8 a.m. until 5 p.m.

While he thought he knew a lot about some of the courses offered, Haddock says the job preparation component really opened his eyes about interviewing skills, writing resumes, elevator speeches and completing applications.

“Mrs. (Ann) Goins (class instructor) was wonderful. She encouraged us and brought in actual job applications for us to complete,” Haddock says. “She was so helpful. It is because of her that I have a job today.”

Haddock completed two DCC courses – Introduction to Computers and Job Preparedness, earning a Gold Career Readiness Certificate (CRC). In January 2013, he joined the staff of New Horizons Security Services Inc., after completing several weeks of training. Haddock is happy that he was assigned to security for the DCC campus.

“I was unemployed for eight months when I came to Danville and I had been used to working, earning a living for my family,” Haddock says noting his four children includes Tyesha, 5; Omari, 4; N’Shayla, 2; and Noah, nine months. “I am happy right where I am. My bills are being taken care of, my kids now have clothes and beds to sleep on, and I am able to provide.”

Haddock shares his experiences with other TARE participants by speaking to on-going classes and offering encouragement to others.

“I plan to look ahead and continue to work in the security and law enforcement field,” Haddock adds. “But right now I just want be stable for a while. The TARE program helped me a lot.”

For more information about the TARE program, please contact the TARE office in Wyatt Building, Room 112; call 434.797.8494; or email info@dcc.vccs.edu.

What is TARE?

Description
Danville Community College, Danville/Pittsylvania County Social Services, and Pittsylvania County Community Action have partnered together to service the Virginia Initiative For Employment Not Welfare (VIEW) and the Temporary Assistance for Needy Families (TANF) recipients to become self-sufficient. Recipients participating in the program are referred by Danville/Pittsylvania County Social Services.

Eligibility
- Recipients of TANF cash assistance who are in the employment program – VIEW, including those sanctioned.
- Recipients of TANF cash assistance who are exempted from VIEW
- Individuals receiving Diversionary Assistance under the TANF program.
- TANF clients whose cash assistance has ended and are now in the transitional period, up to 24 months after the end of TANF cash assistance.
Danville Community College’s Information Systems Technology (IST) program was honored recently with the 2013 Innovation in Education and Outreach Award by the Southern Piedmont Technology Council. The award recognizes the department’s innovative uses of technology to promote and enhance educational opportunities and outreach.

The DCC Information Systems Technology Program focuses on three specializations: Computer Programming, PC Technology and Networking. These specializations are led by dedicated staff who consistently put their students first and work hard to increase students’ learning opportunities. The faculty are also modifying the curricula to reflect the rapidly changing technology world.

Charlie Adams, Professor of Information Systems Technology, has been teaching at DCC for 24 years. He leads the PC Technology specialization, providing courses in computer software and systems applications. Adams has expanded the PC Technology track to offer a more diverse selection of IT courses and give students a strong skill-base in problem solving. Adams also offers advanced courses in Oracle PL/SQL to support the PC Technology and Programming specializations.

Cassandra Satterfield, Associate Professor of Information Systems Technology, leads the Computer Programming specialization. In her 12 years at the College, she has evolved from teaching only one language per semester to offering several languages, including VB, C++, Java, and C# over several semesters. She recently developed a new Gaming and Mobile Application Development specialization which is increasing in popularity. She teaches students how to design, create and maintain programs related to gaming, simulation and mobile applications. Her students learn various languages and programming environments for the latest handheld devices, including Google Android, Apple iOS, and Windows Mobile development. Her work allows area students to be prepared for the latest emerging technology positions.

With 15 years of teaching experience at DCC, Steve Carrigan, Associate Professor of Information Systems Technology, continuously improves the Networking specialization. His courses provide an emphasis on designing, creating, and maintaining local and wide area networks, including routers, switches, wireless technologies, and voice-over-IP telecommunications. He began teaching a modest selection of classes and has expanded his offerings to include advanced courses in Cisco CCNA, CCNP, CVoice, Security, VMWare, Linux, Cloud Technologies, and Microsoft Operating systems. Carrigan has repeatedly sacrificed his time during College breaks to revamp the labs and equipment. The Networking specialization program now boasts one of the best equipped networking labs in the region, providing the most comprehensive training available.

The faculty’s dedication has led to improvements and enhanced the educational opportunities at DCC. The instructors are constantly looking for feedback from business leaders to adjust their curriculum. Under the direction of the IST advisory committee, the DCC IST department has met all set recommendations from the business community. DCC is now a Microsoft, Cisco, and VMWare Academy. With the setup of the DCC Certification Testing Center, students have the opportunity to obtain industry certification on-site. Training in voice technologies, including Cisco Call Manager and Unity, cloud computing, and virtualization have been added to the curriculum. The department has worked hard to gain all necessary equipment to support the newly-added applications.

The DCC IST faculty recently blended Linux operating system training into the already established Microsoft courses and added SQL courses. Thanks to the dedication of the IST faculty, Danville Community College is preparing its students for positions in the ever-changing technology field.
Todd E. Blanks
Air Conditioning & Refrigeration; Summer Air Conditioning & Refrigeration; Winter Air Conditioning Servicing

Todd Blanks of South Boston is seeking a successful and rewarding career with a reputable company in the Heating, Ventilation and Air Conditioning (HVAC) field. He enrolled in DCC in fall 2011, and is expected to complete his studies in May 2013, receiving a Diploma in Air Conditioning and Refrigeration, and Certificates in Summer Air Conditioning and Refrigeration and Winter Air Conditioning Servicing programs.

Raised on a farm, Blanks, the son of Jay and Teresa Blanks, says his family wanted him to have another career in case farming didn't work out for him.

“My grandfather is a tobacco farmer and I have worked the farm for as long as I can remember, full time for about six years,” he says. “My parents and grandparents wanted me to be prepared and have another career to pursue, in case anything ever happened to the farm.”

“I looked at other trades and found HVAC to be one of the few industries still growing and I knew that it would be a rewarding and ever-changing career path,” Blanks explains.

He says working and going to school full time has been his biggest challenge. But he says hard work and perseverance has helped him overcome the challenges.

Blanks, whose father and brother, Phillip, are both DCC alumni, was fully aware of the opportunities he had at DCC. He is also a member of the National Technical Honor Society. However, he says it is DCC faculty and staff who have encouraged him to succeed.

“My instructors, Derick Vicks (Assistant Professor of Air Conditioning & Refrigeration) and Mark Bryant (Associate Professor of Air Conditioning & Refrigeration) have always encouraged me to be open minded and look at all problems from multiple sides,” Blanks says. “Mr. Vicks has always taught that your education does not end on graduation day, that every day in the field is a learning experience.

“DCC is not only a great school, but every day is an exciting experience. Choose a major that you enjoy and success is certain,” Blanks adds.

For more information about the Air Conditioning and Refrigeration, Summer Air Conditioning and Refrigeration, Winter Air Conditioning Servicing programs, contact the department at 434.797.8456, toll free at 800.560.4291, ext. 8456, or email info@dcc.vccs.edu.

“Choose a major that you enjoy and success is certain”

Reason to Attend DCC
It’s more affordable.*

*Low tuition plus you can save money by attending college in your own community.
Tuition is approximately $1500 per semester for a Virginia resident taking 12 credits.

www.dcc.vccs.edu
Sunshine Smith knows exactly what she wants to do for a career.

“My ultimate career goal is to be a professor at DCC,” Smith says. “I have been teaching preschool for nine years so I enjoy teaching others. I am ready to teach older children and see the awe in their faces when learning about genetics – just as I was.”

Smith began her studies at DCC in the summer of 2011. She plans to graduate in the fall 2013 with an Associate of Arts and Science Degree in Science. A native of Danville, she chose DCC to advance her career in education.

“I found that DCC was the best place for that opportunity,” Smith plans to continue her education by transferring to Averett University.

A full-time student, Smith has maintained academic excellence, earning her recognition on both the DCC President’s and Vice President’s Honors Lists. She is a member of Phi Theta Kappa, the international honor society for two-year college students and a recipient of the Ahmed Children Endowed Scholarship.

Active in the community, Smith participates in various running and walking races. She is a den mother with her son’s Boy Scout troop; a green team member for environmental protection; and the social director at Carlisle School – Danville.

“The best thing about DCC for me is the friendly atmosphere, knowledgeable professors who are more than eager to help me at any time and the convenience of the flexible hours and online courses,” she says.

Smith notes one challenge she had to overcome was time management.

“I am a full time mother of three children and I have a full time job as a preschool teacher, so I would definitely say time management has been the biggest obstacle,” Smith says. “My tremendous support system at home, the more than helpful professors and staff and the accommodating hours at DCC has helped me more than anything to overcome my challenges for going back to school.”

Smith notes that her husband has also been a huge source of encouragement.

“My husband, David, told me that if that is what you want, I will stand beside you 100 percent and help you all I can,” she says. “He does this every day - from helping me study for finals to taking care of our three children. He is the most wonderful, supportive person in my life.”

Smith notes that DCC faculty and staff have also encouraged her.

“All of the professors have been encouraging and helpful in my studies,” Smith adds. “One that stands out in my mind would be Dr. Mark Sanderford (Professor of Biology). I told him I was so intrigued and fascinated by the way in which he taught biology, I was going to switch my interest from English to Science.

He told me ‘that’s great Sunny, you would make a great science teacher.’”

Smith says she would encourage others to attend DCC.

“DCC is the best place for whatever you are looking for - classroom or online courses. The staff and faculty are extremely friendly and helpful; they are truly concerned about a student’s advancement in his or her chosen career,” Smith says. “DCC is a great learning facility for the diversity of people in our community. From the Admissions Office to the Learning Resource Center, the DCC atmosphere and staff are very welcoming.”

For more information about Science program of study or other College Transfer/University Parallel programs, contact Cathy Pulliam, Coordinator of Admissions, Enrollment Management and Student Outreach, at 434.797.8538; toll free at 800.560.4291, ext. 8538; or email info@dcc.vccs.edu.
Brandon Dawson
Industrial Maintenance Technician

Brandon Dawson is a prime example of career advancement through DCC and the Industrial Maintenance program.

“I started out as a temporary employee in EPSU (Equipment Prep Set Up) at Nestle for a year and then transitioned to a EPSU flex associate the next year. Now I have been offered and accepted an electrical technician position as of March 2013,” Dawson says.

A 2006 graduate of George Washington High School, Dawson chose Danville Community College to further his education. He plans to graduate in May 2013 with an Associate of Applied Science Degree in Industrial Maintenance Technician.

A Danville native and the son of Dexter and Marjorie Dawson, he says his parents were instrumental in his attending college.

“Both of my parents went back to college to obtain their bachelor’s degrees at a later age,” Dawson explains. “Watching them balance their careers and education was the key to my success. My dad instilled the expression in me, ‘Success Is When Preparation Meets Opportunity’.”

While attending college full time and also working full time, Dawson has maintained high academic standards, earning him recognition on the DCC President’s Honors List. While he says he’s interested in joining the many DCC clubs and organizations available, he hasn’t had the time to fit it in his busy schedule.

“I chose DCC to develop a relevant career in today’s workforce,” Dawson says. “The Industrial Maintenance Program also offers flexible class schedules for students who work full time. The past two years I have been working 40-50 hours per week.”

“I had to learn how to balance working full time with being a full time student,” he continues. “On my first stint as a DCC student at age of 18, I lacked the time management skills necessary to work full time and be a full time student. Then, being unemployed for a period of time teaches you life’s lessons. One thing it showed me is how an education will be the ticket to success.”

Dawson says DCC faculty and staff have played a role in his success at DCC.

“All of my Industrial Maintenance instructors have been more than helpful. Without them none of this would have been possible,” he notes. “With the instructors having experience in the industrial field, they knew how to transfer the knowledge to the students.

“The Industrial Maintenance courses are extremely interactive with lots of hands on projects that must be completed. It consisted of real modern industrial equipment with lots of troubleshooting activities. This is what gave me a step up when I applied for the maintenance position at Nestle; I was able to transfer the knowledge I acquired to the real industrial world,” Dawson says.

He plans to further his education, but not immediately after finishing DCC.

“I would like to obtain a Bachelor of Science Degree in Engineering - mechanical or electrical; I haven’t set a time table as of now. My ultimate career goal is to one day become a mechanical or industrial engineer,” Dawson says.

Would he encourage others to attend DCC?

“Its convenience is the biggest selling point,” Dawson says. “But having instructors who genuinely care about what their students are learning helps also. DCC and the Industrial Maintenance Program have opened doors to a career for me. It can open one for you too.”

For more information about the Industrial Maintenance Technician program of study, contact the Workforce Services Office at 434.797.6437; toll free at 800.560.4291, ext. 6437; or email info@dcc.vccs.edu.
Tim Good of Chatham had a goal when he enrolled at Danville Community College. “I wanted to learn a trade and HVAC (Heating, Ventilation and Air Conditioning) is a trade that can always be used,” Good says.

He enrolled at DCC in fall 2011, and chose a triple major - Air Conditioning and Refrigeration, Summer Air Conditioning and Refrigeration and Winter Air Conditioning Servicing programs. He plans to complete studies for all three in May 2013.

“After being laid off from Times Fiber, I was able to pick up Trade Act (Trade Re-Adjustment Act benefits) and choose what new career I wanted. I really didn’t know much about HVAC but I heard DCC had a great program, so I decided to give it a shot,” Good explains.

When asked who encouraged him to attend college, Good notes “My wife, Maria. I had talked about going to college, but it just never seemed to be the right time. So, when the opportunity came up, my wife said to ‘go for it.’”

Good has excelled academically, earning him recognition on both the DCC President’s and Vice President’s Honors Lists. He is a member of the National Technical Honor Society (NTHS), which promotes the ideals of honesty, service, leadership, and skill development among America’s future workforce and rewards scholastic achievement in occupational, vocational and/or technical education. Members complete various projects during the school year.

In the community, Good attends Marion Baptist Church, where he is involved in the children’s ministry as a Teamkid Teacher. A full-time student with a wife and two children, Good says continuing his education has not been without challenges. “It has been a struggle being a full time student and also supporting a family, but with God’s help and a lot of determination I am overcoming those challenges,” Good says. He notes that his ultimate goal is to have his own mechanical business.

“My instructors, Derick Vicks (Assistant Professor of Air Conditioning & Refrigeration) and Mark Bryant (Associate Professor of Air Conditioning & Refrigeration) are also very encouraging. They are always there to help give advice,” Good adds.

Does he encourage others to attend DCC? “Yes. The instructors are awesome. I think DCC is an excellent college and the instructors are very knowledgeable and willing to go the extra mile to make sure you understand the material that they are teaching,” Good says.

For more information about the Air Conditioning and Refrigeration, Summer Air Conditioning and Refrigeration and Winter Air Conditioning Servicing programs of study, contact the department, at 434.797.8456; toll free at 800.560.4291, ext. 8456; or email info@dcc.vccs.edu.

Tyrell Hairston
Graphic Imaging Technology

Tyrell Hairston is planning a career as a photographer. “I love designing. I’m not so much into mechanical things, not for a career anyway,” Hairston says. “Designing and photography will be something that I plan on doing for the rest of my life.”

A 2010 graduate of George Washington High School, Hairston chose Danville Community College to further his education. He enrolled in the Graphic Imaging Technology program and plans to graduate in May 2013 with a Diploma in Graphic Imaging Technology.

A Danville native and son of Evelyn Hairston, he says he chose DCC because of its affordability and the fact that it is close to home. “Many of my family and friends encouraged me (to attend DCC),” says Hairston, who notes that his mother is a DCC graduate. “My friend’s dad told me ‘If you want to land a good job, you better go to college.’”

While being a full time student, Hairston has worked part-time in the Castle Café on campus, and in the Public Relations Office during the fall 2012 semester. He has maintained high academic standards, earning recognition on both the DCC President’s and Vice President’s Honors Lists.

Hairston notes that the DCC faculty and staff have been an encouragement to him. “I love the people that I have met, the student culture varies from all walks of life and it’s convenient,” says Hairston. “Sheila Wright (Professor of Graphic Imaging Technology) encouraged me to put myself out there as a designer and John Heinrich (Associate Professor of Electrical/Electronics Technology) as a photographer.”

Hairston plans to further his education, but not immediately upon finishing DCC. “I would like to take a few classes at a university later on in my life just to keep my graphic design skills and photography knowledge sharp. I’ve been told that Old Dominion University (ODU) has an amazing graphic design program,” Hairston says. “I would love to work as a photographer for various magazines, but I don’t want to limit my photography to just portraits and weddings,” he continues. “I want to do many different things like food photography and fashion photography and whatever else I can get into. I saved up to get a Nikon in spring of 2012 and I named it Debbie…Debbie Nikon.”

Hairston says he would not hesitate to encourage students to attend DCC because “it’s convenient, affordable and the place to be!”

For more information about the Graphic Imaging Technology program of study, contact the department office at 434.797.8440; toll free at 800.560.4291, ext. 8440; or email info@dcc.vccs.edu

Reason to Attend DCC
You’re In Good Company!*  
*More than 6,000 of your friends & family attend DCC.
Elizabeth Hedrick of Callands is uncertain of what her ultimate career goals will be, but as she heads towards earning her associate degree in May 2013, she’s got her sights set on becoming a professional dancer.

“That’s a rather long story,” Hedrick says, noting she will give the short, condensed version. “I bounced between every major imaginable from Interior Design/Architecture to Dietetics, but I could never get excited when I answered the all-famous question ‘So what are you going to major in?’ I finally realized just this past September that dance was the one answer that made me smile the biggest; therefore, it only made sense for me to major in it.”

A 2011 high school graduate, Hedrick came to DCC that fall. However, she says coming to DCC was more about her indecisiveness, rather than her decisiveness.

“I procrastinated in choosing a college for various reasons --- lack of a known major, cost, etc., but in the end, DCC was all that was left,” she explains. “Yet, if I had the opportunity to do it over again, I would not have it any other way. I love DCC. It is perfect for me.”

A Danville native, she is the daughter of Anthony and Sharon Hedrick. Her father is an alumnus of DCC with an associate degree in data processing.

“My parents certainly encouraged me to attend college, not so much in their words, but in their actions. They both supported me all through high school with assistance and guidance in applying for scholarships, in choosing a major, and in deciding where to attend college.”

Hedrick is a full-time student, but also works part-time at DCC as an English and Chemistry tutor. In addition, Hedrick works part-time as a Magician’s assistant at the North Danville Theatre and as a tutor for a dance student.

She has also received financial assistance to help defray college costs, such as, the Tobacco Financial Assistance Award, J. T. Minnie Maude Scholarship and the Peoples Mutual Telephone Company Endowed Scholarship. Despite a busy work schedule, Hedrick has been named to the DCC President’s Honors List and been active on campus as a member of Phi Theta Kappa, the international honor society for two-year college students, where she is the secretary. In the community, Hedrick is an active member of First Baptist Church in Gretna; has been on two summer mission trips with her church; has led the first graders for Vacation Bible School in the past; and sings in her church choir. This past summer, Hedrick choreographed two dance numbers for the Gretna Little Theatre. She and her family also pack shoe boxes during the Christmas season for Operation Christmas Child.

Hedrick notes that DCC faculty and staff have been an encouragement for her.

“Without a doubt, the best thing about DCC is the people – faculty, staff, and students. I have never met anyone who wasn’t willing to help in any way that he or she could,” Hedrick says. “I have had many wonderful professors and administrators who have encouraged me while I have been at DCC; however, the one person who has supported me the most would have to be Ms. Vickie Taylor (Assistant Professor of Sociology).

“I can recall sitting in her office one afternoon and telling her of my troubled decision to major in dance,” Hedrick explains. “She reminded me that only I could make that decision and that in the end I would be the one to have to live with that choice.”

Hedrick does plan to continue her education after she completes her DCC studies. She has been accepted at Hollins University in Roanoke where she plans to major in dance and minor in communications.

Does she encourage others to attend DCC?

“I would absolutely encourage others to attend DCC! The College is very committed to seeing each and every student succeed and become the best that he or she can be. We have amazing professors who are incredibly personable and easy to work with,” Hedrick says.

For more information about Liberal Arts or other College Transfer/University Parallel programs, contact Cathy Pulliam, Coordinator of Admissions, Enrollment Management and Student Outreach at 434.797.8538; toll free at 800.560.4291, ext. 8538, or email info@dcc.vccs.edu.
Mary Britton
Liberal Arts - Humanities Specialization

After losing her full-time job in the spring 2009, Mary Britton of Danville, who had worked full-time since the age of 16, was devastated. Receiving unemployment benefits and constantly looking for work was frustrating. Then, in August 2009, Britton was hired by the Danville Police Department as a school crossing guard, but for only 10 hours a week. Keeping the faith, her hours were eventually increased to 20 hours a week, but she still worried how she would make ends meet. The answer to her prayers came in the mail in the form of a letter from FAFSA (Free Application for Federal Student Aid) informing her that since she was now a dislocated worker she was eligible to receive federal financial aid and go to school. She was so excited to finally pursue her dream.

Britton enrolled at DCC in spring 2010 and chose the Liberal Arts – Humanities Specialization program as her major. She plans to graduate in May 2013 and receive an Associate of Arts Degree. Her career goal is to become a teacher. Making the transition to college was not easy for Britton.

"Before I came to DCC I had severe anxiety in crowds, fear of public speaking and low self-esteem," she explains. "My biggest challenge has been balancing my time in between school, work and home life."

Britton gives the credit to her caring professors and counselor for helping her to overcome challenges and fears.

"Mrs. Helen Meadors (Assistant Professor of English) was most helpful, very nice and encouraging," Britton says. "She made me feel confident in my ability to stand and speak in front of a class without fear."

Britton notes that the best thing about DCC is its people. "I love the diversity, the wonderful teachers and friendly staff," Britton continues. "I was worried that I would be the only one my age at college and not fit in. There are all ages and origins. DCC does not discriminate against any religion, race, handicap or gender. DCC has a great mixture of creative students and knowledgeable teachers."

She is especially thankful for her friends, Ray Collins and Donna Brown, for their positive encouragement.

"Ray was the first person to believe in me and supported my decision to return to school. He told me I would speak in front of hundreds of people one day," Britton says. "He also bought me a computer, printer and paid for my textbooks for summer school. I mentioned to Mrs. Brown that I wanted to become a teacher, but I was terrified of public speaking. She told me she knew I could do it and continues to encourage me."

"I knew by the age of six that I wanted to be a teacher, but could not afford to go college after high school. I am so appreciative for the generous Financial Aid package that DCC has to offer, for without it, none of this would have been possible. It has been my biggest blessing!" she says.

"When I arrived at DCC, I had no idea what classes were required for my curriculum. Without the wise counsel of Dee Drinkard (Associate Professor of Psychology), my advisor, I would have been lost. He has encouraged me and has been there with me from the beginning to the end. JoLane Dunlap (Instructor and Counselor) offered me the first advice and encouragement. She helped me with the admissions process and suggested a program of study," she adds.

After graduating from DCC, Britton plans to transfer to Averett University to receive a Bachelor of Science Degree in Elementary Education and minor in Special Education. Her ultimate career goal is to obtain her Virginia Licensure and teach kindergarten through third grade.

She is involved in many community activities, including Engage, March for Babies, Week of the Young Child, Children's Puppet Ministry, Community Awareness Programs, After-school Tutorial Programs and Festival in the Park. On the DCC campus, she is also involved in the TEACH (To Educate Always Creates Hope) Club, led by Martha Tucker, Associate Professor of Early Childhood and Reading, who she says keeps her busy and motivated.

Britton has had numerous DCC faculty and staff encourage her, including Cheryl Waller (Adjunct Instructor for Developmental Math) who was her most memorable teacher and who never left her side through her struggles with Developmental Math. Traci Daniel, DCC Transition Counselor, supported Britton's upcoming adventure to the Virginia Tech National Science Foundation Research Experience for Undergraduates (REU) program.

The REU Program is a Hands-On Minds On Multidisciplinary Internship that allows students to live and study on the VA Tech Campus for 10 weeks. Britton will have the opportunity to interact with other Liberal Arts, Science & Engineering undergraduates and college professors. She will participate in extensive research studying different approaches to understanding and preventing Societal Violence. Britton is one among the 10 students selected from national four-year colleges and universities and within the Virginia Community College System to participate in the program.

Would she encourage others to attend DCC?

“Yes. Do it now! Do not be afraid to follow your dream," Britton says. “If you don’t try, you will never know, if you don’t take that first step. Don’t let fear or age or anything stop you from doing what your heart tells you to do. If someone had told me four years ago that I would be graduating at the age of 55 from DCC with an Associate (of Arts and Science) Degree in Liberal Arts, working at the Police Department, living at Virginia Tech for the summer and attending Averett (University) in the fall, I would not have believed it. Back then, I could not imagine me doing any of it, but now… I can’t imagine not doing it. Attending DCC has been a wonderful journey.”

For more information about the Liberal Arts – Humanities Specialization or other College Transfer/University Parallel programs, contact Cathy Pulliam, Coordinator of Admissions, Enrollment Management and Student Outreach, at 434.797.8538; toll free at 800.560.4291, ext. 8538; or email info@dcc.vccs.edu
Students Visit the General Assembly

The first group of students visited the General Assembly and with Dr. Glen DuBois, Chancellor, Virginia Community Colleges in January.

Student Chris Carter, left, is shown with Del. Donald Merricks.

The second group of DCC students visited with legislators in February.

Students Maurice Miller, Delontae Miller and Davante Brooks spend time with Del. James Edmunds.
Bill Strickland

Bill Strickland, President and CEO of Manchester Bidwell Corporation and its subsidiaries, Manchester Craftsmen’s Guild (MCG), and Bidwell Training Center (BTC), was the featured speaker recently for DCC students. Strickland, whose visit was part of the Danville Regional Foundation’s 2013 Speaker series. Strickland discussed educational and cultural opportunities to students and adults within an organizational culture that fosters innovation, creativity, responsibility and integrity. He is shown making his presentation and with Alice Walker, Financial Services Specialist.

On Campus
CBS Radio News

CBS Radio News Correspondent Jim Krasula visited Danville Community College to learn more about the precision machining technology program. The broadcast was featured on CBS affiliated radio stations across the United States. In the photo above, Jim Krasula interviews precision machining technology student Conner Lester, while student Tanner Wright waits his turn. At right, Krasula interviews DCC President Dr. Carlyle Ramsey.
Many DCC students qualify for financial aid. To be considered, you should follow these 4 steps!

1. **Complete a FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA)** online at www.fafsa.ed.gov. Students are encouraged to apply online to receive faster results. Students are also recommended to use the IRS Data Retrieval Tool to complete the FAFSA. It is the easiest, most accurate way to provide your tax data. For assistance, students may contact the Southern Piedmont Educational Opportunity Center (EOC) at 434.797.8577 or DCC Financial Aid Office at 434.797.8567 for an individual or workshop appointment time. DCC’s federal school code is 003758.

2. **Receive the Student Aid Report** and check information for accuracy. Please note it is not necessary to send the Student Aid Report to DCC. Afterwards, DCC will receive the application results electronically from the Department of Education.

3. **Respond to any verification or document request** from the college. If the Data Retrieval Tool was not used to complete your FAFSA, you will need to request a free tax return transcript from the IRS. Go to www.irs.gov or call 1-800-908-9946.

4. **Final decisions** will not be determined until all information has been received and verified by the Financial Aid Office. Failure to turn in requested information will delay the process.

5. **Remember to apply early!!!**

**YOU MUST APPLY FOR FINANCIAL AID EACH SCHOOL YEAR!**

---

**Summer 2013**

Students who plan to enroll for the summer 2013 term must apply for the 2012-13 academic year and complete the 2012-2013 FAFSA. You should be prepared to provide income information for the year 2011. **Apply Now!!**

**2013-2014 Applications**

Students who plan to enroll in the fall 2013 term must apply for the 2013-2014 academic year, and complete the **2013-2014 FAFSA**. You should be prepared to provide income information for the year 2012. **Students are encouraged to apply as soon as tax returns have been completed or before JUNE 1, 2013.**

If you need assistance completing the FAFSA, contact the Educational Opportunity Center (EOC) at 434.797.8577 or the DCC Financial Aid office at 434.797.8567. If you have specific questions regarding your award, contact the DCC Financial Aid Office. Both offices are conveniently located on the first floor of the Wyatt Building.

Federal Pell Grant funds are awarded to all who qualify. Awards of other grants (i.e., Federal Supplemental Educational Opportunity Grant, College Scholarship Assistance Program, Part-time Tuition Assistance Program Grant, and Commonwealth Awards) depend on availability of funds.
Admissions & Registration

Admissions
If you are a new student, you will need to complete an application for admissions. Any student who has not attended DCC since 2009 will need a new application. No application fee is required. We encourage all students to apply early to help their chances of getting the classes they desire. New students may apply on-line at www.dcc.vccs.edu/Studentservices/BecomeaStudent.htm.

Student Identification Number
All students are assigned an identification number. This is called an EMPLID#. For more information about the EMPLID number, contact the Admissions Office.

Placement Testing
All new students who are seeking a degree, diploma, or certificate are required to take a placement assessment. Students should contact the Counseling Office at 434-797-8460 or email dcc_placement@dcc.vccs.edu to make an appointment. Test scores are valid for two (2) years after the date of the test. Students who take the placement assessment and who do not enroll in developmental courses are allowed to take one (1) retest within twelve (12) months as approved by an Academic Counselor, Division Dean, or College Registrar. Students who attempt developmental courses will be ineligible for a retest. Exceptions to this policy may be made on a case-by-case basis as approved by an Academic Counselor, Division Dean, or College Registrar. A practice test is available online at www.dcc.vccs.edu/studentServices/Admissions/PlacementTesting

Online Registration
Current students can register for classes online at www.dcc.vccs.edu.

Tuition Payment
All students must pay tuition on the same day they register for classes unless they have approved financial aid or scholarships to take care of the tuition payment.

Tuition Refund With Official Withdrawal
Students may be eligible for a tuition refund if they drop classes or withdraw from the College. The drop/swap form or withdrawal form must be processed by the Admissions Office on or before the announced date each semester. Please refer to the College Calendar for the deadline for tuition refunds for Summer Session classes, or contact DCC’s Admissions Office at 434.797.8467.

Please note that shorter term classes may have a different deadline. Please contact the Admissions Office at 434.797.8467 for more information.

More College Information

Counselors
Full-time counselors provide academic counseling and guidance services to students throughout their tenure at the College. For assistance, phone 434.797.8460.

Career Development and Placement Center
Our comprehensive career development services offer guidance in choosing and preparing for a career and locating employment. For assistance, please call 434.797.8520.

Financial Aid
The College has a strong financial aid program. It is our desire that no qualified student be excluded from furthering his/her education because of financial need. For assistance, phone 434.797.8439. If you would like assistance completing the FAFSA form, watch the student newsletter, LeCourrier, for scheduled financial aid workshops, or see page 17. A financial aid representative will also be in the Student Center on the third Tuesday of each month.

Senior Citizens
Citizens 60 years of age or older should contact the Admissions Office (434.797.8467) for information regarding waiver of tuition and fees.

Veterans
Students who are eligible for VA benefits or other resources should contact the DCC Veteran’s Specialist at 434.797.8489.

Tuition How much will it cost?

TUITION AND FEES:
Virginia Residents $126.50 per credit hour*
Out-of-State Residents $318.60 per credit hour*+
E-Rate (in-state residents) $126.50 per credit hour**
E-Rate (out-of-state residents) $224.00 per credit hour**+

MAINTENANCE FEE: $0.50 per credit for classes taught on campus

*Includes a $7.50 per credit Information Technology fee and a $1.50 per credit Student Activity Fee.

**The e-rate is applicable to designated distance-learning courses delivered entirely over the Internet. This includes a $7.50 per credit Information Technology Fee.

+Out-of-state residents also pay a $15.50 per credit Capital Fee.

NOTE: Tuition and fees are subject to change by the State Board for Community Colleges.

**Buying Textbooks...**

Students and others interested in purchasing textbooks can receive an accurate listing of course material information including ISBN and retail prices online at the DCC Bookstore web page (dccbookstore.dcc.vccs.edu/home.aspx).

---

Every effort has been made to provide the most accurate, up-to-date information possible in this schedule. However, the College reserves the right to change, when warranted, any of the provisions, schedules, programs, courses or fees, as might be required.
OFF CAMPUS – HALIFAX COUNTY

Full Summer Session
May 28 – July 30, 2013

Classes begin May 28, 2013 unless otherwise stated.
*There will be no classes on July 4, 2013
Registration will continue until classes are filled.
For more information, please call 434-572-5451 or 434-572-5456.

Accounting

SVCC 22805 ACC 212-90 Principles of Accounting II 4 MW 5:30 6:30 Terry

Air Conditioning & Refrigeration

SVCC 22820 AIR 195-90 Coordinated Internship 3 T 5:30 6:30 Cole

Art

DCC 20992 ART 101-70 Hist. & Apprec. of Art I 3 TTh 10:30 11:45 Mulwee
DCC 26205 ART 158-90 Art Composition 3 MWF 2:30 3:30 Mulwee

Administrative Support Technology

SVCC 22809 AST 107-90 ED/Tech Write 3 MW 6:00 7:30 Bane
SVCC 22814 AST 114-90 Keyboarding (617-730) 2 S 9:00 11:30 White
DCC 22891 AST 132-7A Word Processing: MS Word 1 TTh 8:30 10:00 White

Biology

SVCC 22827 BIO 101-90 Foundations of Biology 3 MW 3:45 6:45 Meeks
SVCC 22828 BIO 102-90 General Biology I Lab 3 TTh 4:00 6:00 Paschuta
SVCC 22831 BIO 110-90 Intro. Microbiology & Lab 4 T-Th 8:30 11:15 Fisher
SVCC 22833 BIO 112-90 Gen. Microbiology & Lab 4 T-Th 8:30 11:15 Fisher
SVCC 22836 BIO 205-90 Env. Microbiology & Lab 4 T-Th 8:30 11:15 Fisher
SVCC 22838 BIO 231-90 Human Histology & Microscopy 3 TTh 10:30 12:00 White

Childhood Development

DCC 21068 CHD 210-70 Intro. To Exception Children (5/28-6/26) 3 MW 4:30 6:30 Catron

Chemistry

DCC 21101 CHM 5-70 Dev. Chem. for Health Sci. 3 MW 3:45 6:00 Spencer

Communications & Theatre

SVCC 30648 CST 100-90 Prin. of Public Speaking 3 F 9:00 11:30 Edmunds

Economics

SVCC 30649 ECO 202-90 Prin. of Microeconomics 3 TTh 8:30 10:30 Nipper

Check out the listing of Distance Learning classes on page 26. For the most complete and up-to-date class schedule listing, visit www.dcc.vccs.edu.
### Distance Learning

DCC has expanded its distance learning offerings. The courses require the student to be self-motivated, to receive and submit most course materials in written form, and to have and be comfortable using the required technology for the course. Always check with the instructor if you have questions. The distance learning courses are available in a variety of formats, including:

- **Web-based** - courses delivered entirely online
- **Hybrid** - courses that are offered online and through limited in-class instruction
- **Interactive video** - courses which include real-time, two-way audio and video communication at local and remote sites
- **Video-based/DVD** - courses where materials are checked out and the work is completed at home, independent of the classroom

Visit the Virginia Community College System website at http://courses.vccs.edu/ to view distance learning classes offered by other colleges. Call us at 434.797.8467, toll free 800.560.4291 ext. 8467, or email info@dcc.vccs.edu for assistance in arranging a course from another VCCS college.

For classes on the Main campus, see pages 20-23. Off campus classes are on pages 24-25.

Classes listed are as of March 4, 2013. For the most up to date class schedule, please visit our website at www.dcc.vccs.edu/Academics/Schedules/Schedules.htm

Summer 2013 • Danville Community College 27
Representatives from Newport News Shipbuilding Keisha Jones, second from left, Human Resources-Talent Acquisition, and Aftinn Flagler, right, made a presentation to students in the Industrial Maintenance and Manufacturing Engineering associate degree programs. They are shown with Jeff Arnold, Vice President, Workforce Services, and Gerald Sexton, Wood Products Technology program.

The 16th cohort of students in Danville Community College’s Manufacturing Technician Career Studies Certificate Program recently completed the curriculum. The 12-week training program prepares students for employment in various manufacturing jobs requiring advanced technical and operator skills as well as knowledge of advanced manufacturing practices. Shown, left to right, are: Terrence Baines, Danville; John Alvis, Ringgold; Isaac Hairston, Danville; and William Paige Swanson, Collinsville. Not pictured are: David Wingfield, Danville; Martin Pauley, Cascade; Matthew Terry, Ringgold; and Timothy Santoemma, Ridgeway.
DCC Recognized For **Sustainability Programs**

At State Conference

Danville Community College was recognized recently for its sustainability programs at the Virginia Commonwealth University Energy and Sustainability Conference held in Richmond. The College received the Crystal Award, which recognizes leadership in the areas of energy and sustainability. **Jerry Franklin**, Director of Manufacturing and Technical Services, accepted the award on behalf of the DCC.

“We feel we have an effective and innovative program in place to guide our students, faculty and community to develop new sustainable habits and appreciate this opportunity for recognition of our efforts,” Franklin said.

Franklin noted the following initiatives in place that focus on energy and sustainability:

1. "Sustainability Scholars" program, in which an award is earned upon completion of 15 credits from courses designated as having at least 20 percent sustainability content. Sustainability content includes environmental science, alternative energy technologies (electric vehicles, bio-fuels, storage, solar, geothermal, low-head hydro, etc.), conservation, and improvement in "Environmental Performance Index" variables i.e. Environmental Health, Ecosystem Vitality, Productive Natural Resource Sustainability and Climate Change. Curricula impacted by this designation include Air Conditioning and Refrigeration, Computer-Aided Drafting and Design, Electrical and Electronics Engineering Technology, Automotive Analysis and Repair, and Building Trades.

2. Career Studies Certificate program has been developed and focuses on **Alternative Energy Technologies** to meet the workforce needs of local sustainability-related companies. Danville has both a LiFePO4 battery company and a solar panel manufacturer that need workers trained in these sustainable technologies. DCC’s battery technology course is rare among community colleges. The program also has courses in solar installation, energy conservation and wind energy generation. So far, approximately 55 students have taken classes in these technologies.

3. Funding for professional development in sustainability topics. A portion of the college’s professional development budget is designated specifically toward training and education in sustainability topics. As an example, faculty members have been trained at UL Labs in the solar installation facility.

4. DCC is a member of the Virginia Weatherization Center (VWC), and has trained contractors in home weatherization techniques. Four Danville and Martinsville homes, in need of weatherization, were used as learning platforms where $1,000 of material improvements were made in each home. Twelve contractors received BPI (Building Performance Institute) certification through the course work at DCC and the VWC. Funding was provided by VWC and the Dan River Regional Collaborative.

5. DCC’s Phi Theta Kappa honor society has instituted a recycling program on campus that has successfully recycled paper, plastic, aluminum, electronics and printer cartridges. Students also have a textbook recycling program to recycle used textbooks through the “Better World Books Project”. Students routinely car pool for out of town trips as well as local commutes to campus.

6. The DCC Automotive and Air Conditioning and Refrigeration Departments recover and recycle refrigerants from home and auto air conditioners, using Environmental Protection Agency (EPA) approved techniques and equipment. Also, materials such as paint, motor, transmission and gear oils, paint thinner, antifreeze, etc. are collected and recycled through an approved commercial materials recycler. In addition, chemicals from DCC’s chemical laboratories are controlled and regulated by policies of the DCC Chemical Hygiene Committee.

7. On campus, DCC is constantly seeking ways to improve energy efficiency of its buildings. Annual energy savings are tracked through improvements, such as upgrading of lighting for efficiency, automatic occupancy sensors, low-flow water fixtures and weatherization of buildings.

In the community, Franklin said DCC also developed and led a community initiative in a novel and innovative approach to reduce auto pollution, save gasoline, and improve fitness among community citizens. The program, known as “E Bike Danville™”, is a collaboration led by DCC’s Workforce Services Office with the Danville Science Center, City of Danville, Virginia Tech Extension, LifeBatt Battery Company, Spin Shop, Gerhardt Engineering. The Dan River Regional Foundation providing funding.

E Bike Danville® studies and promotes the use of electric bicycles as a **practical substitute** for automobiles. The first phase studied the practicality of using e-bikes for local commuting such as work, shopping, errands or visiting friends. During the summer of 2012, DCC loaned e-bikes to 24 volunteer evaluators for two-week periods to use in place of their cars. Evaluators were asked to keep a journal of all round-trip rides and report their findings.

The E-Bike Danville® study, which was recently released, indicated that e bikes are a practical means of transportation for short (less than 20 miles) trips. An e bike is 18 times less polluting than an automobile, and riders save money on gasoline, insurance, maintenance and registration of a car. In addition, health and fitness is improved, since e bikes assist the rider, when needed, on hills and windy conditions.

The E Bike Danville® program has gained statewide, national and international attention for its innovative approach to using e bikes as regular transportation. In addition, DCC is developing a certificate program in collaboration with the Light Electric Vehicle Association, (LEVA), which will be presented nationally to e bike dealers and manufactures to train technicians to repair e bikes and other motorized vehicles. The training program should be ready to begin summer 2013.

For more information about DCC programs and services to foster sustainability habits, please contact Jerry Franklin, at 434.797.8573; toll free at 800.560.4291 ext. 8573; or email info@dcc.vccs.edu.
Workforce Services

Of Special Interest

**Polymer Processing**
The Career Studies Certificate in Polymer processing prepares students for work in the polymer and plastics industry as an operator or technician. This summer class *(IND 295-90 – Polymeric Materials - 3 crs)* is one of five classes needed for the certificate. The course is designed to provide the student with an understanding of polymeric materials including engineering plastics. Students will learn to identify proper applications for up to 50 engineered plastics. Students will also learn to prepare samples and perform physical tests on plastic materials; Tensile, Impact, Melt Index and others. Topics include natural polymers, polymer synthesis, polymer morphology, inorganic polymers, ionomers and polymeric materials applications. The class meets Monday evenings, 4:30-8:30 p.m. *For more information, please contact Jerry Franklin 434.797.8573 or email jfranklin@dcc.vccs.edu.*

**Alternative Energy**
ENV 170 – Fundamentals of Energy Technology is one of five courses in the new Alternative Energy Technology Career Studies Certificate. ENV 170 concentrates on the conservation of energy when used for residential heating and cooling applications. The course should be especially interesting to homeowners who would like to learn about weatherization and energy conservation techniques to lower heating and cooling bills. This class meet Thursday evenings, 5:30-8:45 p.m. *For more information, please contact Jerry Franklin 434.797.8573 or email jfranklin@dcc.vccs.edu.*

**Motorcycle Rider Safety**
If you have always wanted to learn to ride a motorcycle, now is your chance! RVH 130 - Motorcycle Rider – Beginning Motorcycle Safety (1 cr) - Studies principles and basic skills of motorcycle riding with an emphasis on safety. The class includes street strategies, protective gear, and selection and care/maintenance of motorcycles. Courses are scheduled for the following weekends: May 24-26; May 31-June 2; June 21-23; July 5 - 7; and July 26 - 28. Classes meet Fridays, 6:00-9:30 p.m., Saturday and Sunday, 8:00 a.m.-5:30 p.m. Bikes are provided. *For more information, please contact Mark McFaddin at 434.797.6421, the Workforce Services Office at 434.797.8430, or email mmcfaddin@dcc.vccs.edu.*

**Tennis**
Tennis Anyone? PED 123-50 (1 cr) is designed to teach tennis skills with emphasis on stroke development and strategies for individual and team play. The class includes rules, scoring, terminology, and etiquette. The course is offered Fridays, 10:00 a.m.-12:30 p.m., May 31-July 5. (Additional playing time to be arranged). *For more information, please contact the Workforce Services Office 434.797.8430.*

**Adult Health and Development Course**
PED 220 – Adult Health and Development (3 crs) – Provides direct application of the theories of aging and physical activity. Teaches techniques for developing appropriate individualized fitness and activity programs for older adults focusing on physical, social, and mental well-being. Includes assessment and evaluation of physical fitness principles, roles or exercise in disease prevention, leadership skills and communication strategies. Course meets Tuesday, Wednesday, and Thursday evenings; 6:00-9:00 p.m. at the Riddle Center in Gretna, June 11 – July 9. (Additional time to be arranged). *For more information, please contact the Workforce Services Office 434.797.8430.*

**ServSafe® Food Safety Training Program (Non-Credit)**
The ServSafe® Food Safety Training Program leads the way in providing current and comprehensive educational materials to the restaurant industry. More than two million food service professionals have been certified through the ServSafe Food Protection Manager Certification Exam, which is accredited by the American National Standards Institute (ANSI)-Conference for Food Protection (CFP).

ServSafe training and certification is recognized by more federal, state and local jurisdictions than any other food safety certification. Topics covered include sanitation, the flow of food through the operation, sanitary facilities and pest management. The course prepares individuals for the ANSI-CFP accredited exams which will be administered as part of the class. Course dates are June 10, 11, and 12; 4:00-8:00 p.m. Cost is $125 per person. *For more information, please contact the Workforce Services Office 434.797.8430.*

Industrial Maintenance

Danville Community College will be offering for the summer 2013’ semester Industrial Maintenance courses at its Regional Center for Advanced Technology and Training located at 121 Slayton Ave., Danville, Va.

The courses at RCATT are being offered in an open-entry, open-exit (OEE) format providing students the flexibility of enrolling anytime during the semester. Classes are offered on Monday-Thursday from 8:00am-12:00pm and 4:00pm-10:00pm. Students register for the courses the same as they would other courses at DCC. The only difference being with the open-entry, open-exit (OEE) courses is the flexible starting and ending times for the courses. Class materials are provided the student at a cost of $50 per course and is payable at the time of registration. Students must register for the accompanying non-credit offering for each credit course taken.

Once enrolled in a course the student has sixteen weeks to complete. An example would be a student enrolled in a four-credit course can easily complete the course by attending one four-hour class per week during the sixteen week period. Students also have the flexibility of completing courses earlier by attending more classes per week. The number of times a student can attend class during the week is dependent on the equipment availability and permission of the instructor.

All the courses are delivered in a hands-on style of delivery using the latest technology found in today’s industry.

Below is a listing of courses presently being offered.

Art Lecture by Alla Parsons

This summer, DCC will present two lectures on art by Alla Parsons. Parsons, a Russian native, holds a Master of Fine Arts Degree from Georgia Southern University and a Bachelor of Fine Arts Degree from Minnesota State University at Moorhead. She is also completing post graduate studies in world history from the Russian Academy of Science and is currently Artist-in-Residence at the Danville Museum of Fine Art and History.

Her first presentation, Russian Art - An Overview, ART 2020-90 (#30466) will include the history of Russian art, covering figures such as Chagal and Kandinsky, as well as icons of the Russian Orthodox Church. The lecture will be held Monday, June 24, from 5:30 – 7:30 p.m., at the Regional Center for Advanced Technology and Training (RCATT). The open-entry, open-exit format has been very popular with local industry due to the content, style of delivery, flexibility and time frame of the offerings. Students receive college credit for successful completion as well as opportunity to apply courses to an Associate’s Degree.

For more information about the Industrial Maintenance program and courses, contact Gerald Sexton at gsexton@dcc.vccs.edu or call 434.797.8565.

The second presentation, Women in Art - Why Have There Been No Great Women Artists – ART 2020-90 (#30468) will focus on women artists and discuss possible reasons why “greatness” in artistic accomplishment have been reserved for male geniuses. This lecture will be held Monday, July 22, from 5:30 – 7 p.m., at RCATT.

Another presentation to be held this fall will discuss the Influence of Expressionism and Formalism on the Representation of the Human Figure in Contemporary Art. More details on this lecture will be available later.

For more information, please contact Jerry Franklin, Director Manufacturing and Technical Services, at 434-797-8573.
Instructor-Facilitated
Online Courses

Our instructor-facilitated online courses are informative, fun, convenient, and highly interactive. Our instructors are famous for their ability to create warm and supportive communities of learners.

All courses run for six weeks (with a 10-day grace period at the end). Courses are project-oriented and include lessons, quizzes, hands-on assignments, discussion areas, supplementary links, and more. You can complete any course entirely from your home or office. Any time of the day or night.

**How to Get Started:**

1. Visit our Online Instruction Center: www.ed2go.com/danville
2. Click the Courses link, choose the department and course title you are interested in and select the Enroll Now button. Follow the instructions to enroll and pay for your course. Here you will enter your e-mail and choose a password that will grant you access to the Classroom.
3. When your course starts, return to our Online Instruction Center and click the Classroom link. To begin your studies, simply log in with your e-mail and the password you selected during enrollment.

**More online classes? See DCC Distance Learning Classes on pages 25-26.**

---

**Danville Community College**

**Certified Mediator Certification Preparation Program**
Certified Mediator offers a highly comprehensive conflict resolution education that can help you advance in your present job, add a sought-after skill to your resume, or set up a private practice as a Certified Mediator. Offered in partnership with Mediators without Borders®, this program includes online training in mediation and a 60-hour online internship where you can role-play different mediation scenarios as a mediator, disputant or observer.

**Certified Wedding Planner**
Prepare for a career in wedding planning by mastering the fundamentals of planning, orchestrating, and delivering “wow” weddings and parties. This program allows you to earn your certification as a professional wedding planner— and you’ll even have an opportunity to put your new skills to work in an optional internship!

**Entrepreneurship: Start-up and Business Owner Management Skills Training Program**
Provides an excellent foundation for not just the start-up business owner, but also for business owners and managers who want to gain a further understanding of some of the fundamental principles associated with owning and operating a start-up or established business. You’ll grow in your understanding of financial and accounting terms, gain confidence and improve your communication skills, and explore the basics of running a business in accordance with legal requirements.

**Grant Writing**
The program teaches you the essentials of writing, researching, obtaining, and maintaining grants. You’ll learn how to format your proposals, how to write effectively, and how to get funded.

**Non-Profit Management**
Examine the fundamental principles of nonprofit management, explore the roles and responsibilities of a nonprofit board of directors and the management team, discover the essential aspects of fundraising, and become acquainted with the budgeting process.

**Personal Training and Group Exercise Training for Older Adults**
The certificate program incorporates standards from the International Curriculum Guidelines for Preparing Physical Activity Instructors of Older Adults, in collaboration with and endorsed by the World Health Organization. The American College of Sports Medicine’s Professional Education Committee certifies that Educational Fitness Solutions, Inc, who works with us to bring you this program.

**Technical Writing**
This is designed for anyone who wishes to develop their technical writing abilities to a professional level. You’ll learn research methods, audience considerations, style, drafting and revision techniques, how to work in a collaborative environment, and more. You’ll study a variety of media and formats, including Web sites, e-mails, proposals, memos, and instructions.

**Search Optimization**
The Search Engine Optimization Online Training Program will teach you how to increase a Web site’s traffic by improving its rankings with search engines. Whether you want to start a career in Internet marketing, add a new skill to your Web business, or learn the secrets to search engine success for your own site, the Search Engine Optimization Online Training Program will help you reach your goals.

**Genealogy Basics**
This course will help you understand the genealogy research process and the way we interpret the information we find. This course guides you through the search process for family names using several subscription-based Web sites.

Macerata Wheels LLC announced plans to locate its manufacturing and distribution operations to Danville, near the DCC campus where they expect to employ approximately 100 workers. Company officials say the location was selected because of its proximity to the workforce training programs provided by Danville Community College. Shown at the announcement, are: Christopher Joy of Macerata; Dr. Carlyle Ramsey, DCC President; Rear Admiral Robert R. Fountain (Ret.), member of the State Board for Community Colleges; Mike Farless, Macerata President; and The Honorable James S. Cheng, Virginia’s Secretary of Commerce and Trade.

Watch DCC Today to find out more about your community college. Host Cathy Pulliam, Coordinator of Admissions, Enrollment Management and Student Outreach, and her guests each month provide lively discussions on topics of interest. The show is broadcast on Star News WMDV-TV (Comcast Channel 16) on Saturdays and Sundays at 11:00 a.m., on Wednesdays at 1:00 p.m., and at other times throughout the month. Pulliam is shown interviewing Jim Lindley, Counselor and Coordinator of Student Activities and Athletics.
